Tools	Figma, Framer, Whimsical, Mid journey, Lottie, Adobe Illustrator, Photoshop, Jitter, Cursor, Claude, AI Tools
Technical	HTML, CSS, JavaScript (Working Knowledge)
Core strength	Problem Solving, Stakeholder Communication, Agile/Scrum, Collaboration, Attention to Detail

WORK EXPERIENCE

Upliance.ai - Product - Full Time	Sep 2024- Mar 26
Product Designer	Bangalore, India

- Designed core mobile and a device experiences for an AI-powered cooking platform, applying inclusive design principles to improve usability and engagement.
- Collaborated with product managers, engineers, and founders in Agile/Scrum environments to balance user needs with technical constraints.
- Conducted user research and behavioral analysis through usability testing to uncover key insights around cooking session patterns.
- Simplified complex workflows into intuitive user journeys through effective information architecture, improving task completion rates.
- Built and maintained a scalable design system using reusable card components to support rapid product iterations with help of tools like antigravity and claude code.
- Reduced perceived cooking time, user mid recipe drop-offs, device returns and increased retention through empathy driven UX improvements and interaction design approach.~24%

Divami Design Labs - UX UI Design Agency - Full Time	Sep 2023 - Aug 2024
UI Designer	Hyderabad, India

- Designed user interfaces for SaaS and enterprise platforms, focusing on usability and scalability for an AI powered Doctor and hospital management tool helping doctors to speed up on data handling.
- Introduced AI tools into design workflows to improve efficiency and accelerate delivery among the team.
- Created interactive and visually rich experiences using 3D elements and micro-interactions for Toothcare app for kids.
- Collaborated in Agile teams, delivering high-quality designs under tight timelines.
- Presented design solutions to stakeholders and incorporated feedback into iterations.

Incture Technologies - Full Time	July 2022 - Aug 2023
Associate User Experience Designer	Bangalore, India

- Led UX design for SaaS platforms (Cherrywork & PhonePe), focusing on enterprise user needs.
- Conducted user research, created personas, and validated design decisions through usability testing.
- Simplified complex enterprise data into intuitive dashboards and workflows.
- Partnered with developers to ensure seamless design-to-development handoff.
- Revamped the Cherrywork dashboard, increasing user engagement by~30%.

Brandshape - Graduation (Internship)	Jan 2022 - Apr 2022
Communication Designer (In-House Brand)	Mumbai, India
UX Designer (HDFC Bank - Client Work)	

- Designed user experiences for banking workflows, aligning with business and user goals.
- Conducted user research to identify pain points and improve customer journeys.
- Collaborated with team to deliver user-centric solutions.
- Improved usability and clarity of key banking interactions.

Valkyre - (Internship)	Sep 2021 - Dec 2021
Communication Designer (In-House Brand)	Mumbai, India
Illustrator	

Ergate - (Internship)	May 2021 - Jul 2021
Communication Designer	Mumbai, India
Illustrator	

PROJECTS HIGHLIGHTS

Upliance.ai AI + Consumer Product + Discovery · Mobile App

Researched and designed an AI-powered discovery ecosystem for Upliance, helping users translate cravings, ingredients, and social inspiration into personalized cooking experiences. Established multimodal discovery patterns and behavioral AI frameworks that informed future product strategy and recipe exploration experiences.

Toothlens AI + HealthTech · Mobile App

Designed AI-assisted dental health experiences that enabled users to scan, monitor, and understand oral health conditions through personalized insights, simplifying complex healthcare information into actionable guidance. Doctorite

PhonePe Employee Management Platform Enterprise SaaS (Fintech) + Internal Tools · Web Platform

Designed employee management and operational workflows for internal teams, improving efficiency across complex organizational processes through structured information architecture and scalable design systems.

My Experience in Web-Design Retail · Real Estate

Alongside product design, I've collaborated with founders, marketers, developers, and brand teams to design websites that balance business goals with user needs. From shaping brand narratives to crafting conversion-focused experiences, these projects taught me how to work across disciplines, align stakeholders, and bring ideas to life through thoughtful digital experiences.
